Title of the Manuscript:	Digital and Business Skills Necessary to Curb Youth Unemployment in Delta State, Nigeria
Type of the Article	

PART 1: Comments

	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript is of significant importance to the scientific community as it provides empirical evidence on the critical role of business and digital skills in curbing youth unemployment. It highlights specific entrepreneurial and digital competencies necessary for enhancing self-employment and employability among youths, contributing to economic sustainability. Furthermore, the study bridges a gap in gender-based analysis of skill acquisition, offering insights into curriculum development and policy formulation to strengthen job creation initiatives. These findings serve as a foundation for future research and practical interventions in education and workforce development.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	

Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Objectives Missing	Purpose of the study and objective of the study is the same
Is the manuscript scientifically, correct? Please write here.	Yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References s not follow APA Style	APA 6 was followed
Is the language/English quality of the article suitable for scholarly communications?	Yes	
<u>Optional/General</u> comments	<p>The topic is very good, but improving the analysis for factor analysis, regression analysis etc. Review of Literature Missing.</p> <p>This manuscript contributes significantly to the ongoing discourse on youth unemployment by highlighting the critical role of digital and entrepreneurial skills in addressing this socioeconomic challenge. It provides empirical evidence on the specific business and digital skills that are necessary for enhancing youth employability and self-reliance, particularly in Delta State, Nigeria. The findings offer valuable insights for policymakers, educators, and curriculum designers to integrate skill-oriented training into educational systems, fostering a workforce that meets the demands of a rapidly evolving digital economy. Furthermore, the study reinforces the importance of gender-neutral approaches in promoting skill acquisition for inclusive employment opportunities.</p>
