Istheabstractofthearticle comprehensive?Doyousuggest theaddition(ordeletion)of somepointsinthissection? Pleasewriteyoursuggestions here.	Theabstractprovidesasolidoverviewofthestudyby highlighting its objectives, methodology, key findings, andrecommendations.However,thereareareaswhere itcouldbeimprovedforclarity andcompleteness.	The suggestions has been noted.
Isthe manuscriptscientifically, correct?Pleasewritehere.	Yes.	Okay
Arethereferencesufficient andrecent?If youhave suggestionsofadditional references,pleasementionthem inthereviewform.	No.	Noted and recent references added.

Is the language/English quality of the articles suitable for scholarly communications?	No.	Noted
<u>Optional/General</u> comments	<p>Dear Editor,</p> <p>The manuscript titled "ASSESSMENT OF TOTAL QUALITY MANAGEMENT ON PERFORMANCE IN JULIUS BERGER NIGERIA PLC" could be published in Journal of Global Economics, Management and Business Research after a major revision. To this aim, the authors should address carefully some comments as follows:</p> <ul style="list-style-type: none"> □ Revise the Title: Make the title more engaging and broader in scope by including terms like "A Case Study in the Nigerian Construction Sector." □ Strengthen Abstract: Emphasize the study's novelty, key implications, and practical applications while avoiding excessive technical details. □ Highlight Research Gap: Clearly articulate the specific gap this study addresses in the literature review to justify its relevance. □ Detail Methodology: Provide more information on how the questionnaire was developed, validated, and pretested. □ Enhance Statistical Interpretation: Explain the practical implications of statistical results (e.g., β values) for better understanding. □ Provide Context for Generalizability: Justify why Julius Berger Nigeria Plc was chosen and how the findings apply to other contexts or industries. 	Thank you for the suggestions for improvement.

	<ul style="list-style-type: none"> ▢ Refine Recommendations: Make recommendations more specific and directly tied to the findings, including practical examples. ▢ Discuss Limitations: Include a brief discussion of the study's limitations, such as its focus on a single organization, to guide future research. ▢ Focus on Key Findings: Streamline the presentation of results to focus on the most impactful and relevant findings. ▢ Improve Conclusion: Expand the conclusion to include broader implications for TQM in similar industries and suggestions for future research directions.
