Title of the Manuscript:	<b>Digital and Business Skills Necessary to Curb Youth Unemployment in Delta State, Nigeria</b>
Type of the Article	

**PART 1: Comments**

	<b>Reviewer's comment</b>	<b>Author's Feedback</b> <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.</b>	<p>Given the high rates of youth unemployment in Nigeria, the research focus on digital and business skills necessary to reduce youth unemployment in Delta State is evident and pertinent.</p> <p>A solid grasp of research methodology is demonstrated by the use of a questionnaire for data collection and Cronbach Alpha for reliability analysis.</p> <p>The identification of particular digital and commercial skills needed to reduce youth unemployment offers educators and policymakers fundamental new information.</p>	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	The title of the article is indeed suitable. Youth unemployment is the contemporal issue that exist in many regions, particularly in the sub-saharian counties.	

<p><b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b></p>	<p>Regarding sample size and representation, the claim that "there was no sampling since the population was manageable" raises questions.  Only the mean and standard deviation were utilized in the analysis, which might not be enough to examine the connections between the variables.  There may be a significant difference between the mean responses of male and female business education professors even if the null hypothesis is accepted.</p> <p>Additional details regarding the population and sample size would be beneficial.  Think about applying more sophisticated statistical analysis methods.  Think about giving further details regarding the hypothesis testing process</p>	
<p><b>Is the manuscript scientifically, correct? Please write here.</b></p>	<p>The manuscript is indeed scientifically correct. The study adds to the body of knowledge regarding the value of business and digital skills in tackling youth unemployment.</p> <p>The results have consequences for practitioners, educators, and legislators tackling youth unemployment in Delta State and elsewhere.</p>	
<p><b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b></p>	<p>Yes</p>	

<b>Is the language/English quality of the article suitable for scholarly communications?</b>	Yes	
<b>Optional/General</b> comments	<p>To improve the validity and reliability of the results, give more details about the population, sample size, and research strategy.</p> <p>To investigate the correlations between variables, think about utilizing more sophisticated statistical analysis approaches.</p> <p>Describe the hypothesis testing process in further detail, along with the findings' implications.</p> <p><b>PLEASE SEE ATTACHMENT</b></p>	

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
