

Journal Name:	Asian Journal of Current Research
Manuscript Number:	Ms_AJOCR_12743
Title of the Manuscript:	Genetic diversity of rice (<i>Oryza sativa</i> (L.) genotypes under aerobic condition
Type of the Article	

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

PART 1: Comments

	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	Genetic divergence studies is very important for the screening of desirable genotype for future breeding programme. Inter cluster distance is can be easily find out by this methods. If the distance between the cluster is high it is suitable for future breeding programme.	
Is the title of the article suitable? (If not please suggest an alternative title)	Assessment of different traits of rice genotypes grown under aerobic condition to find out divergence genotypes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract should be rewrite based on the following point Research importance with objectives Methodology Result and discussion Conclussion Recommendation	
Is the manuscript scientifically, correct? Please write here.	Yes	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Hossain, M. M., Azad, M. A. K., Eaton, T. E.-J., & Siddquie, M. Is the language/English quality of the article suitable for scholarly communications?	Yes but minor change is needed	
Optional/General comments	Overall good Need some portion change Methodology should be clear and more understandable Like plant materials, cultivate condition In introduction section some references needed from review study	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
