

Editor's Comment:

Manuscript Title: The Indigenous Knowledge and Natural Conservation Aspects of the Life of Baganda, the people of Uganda

I read the revised manuscript and three reviewers' reports, and one editor's which are positive to the manuscript.

My final decision is positive. I think that the last version of the paper can be published.

Some corrections are needed. These are marked in the Attachment.

Also,

- The organisation of the manuscript to be checked.
- Abstract part

The Abstract should be a brief presentation of the aims and scope, methods, findings and conclusion of the article. It should NOT duplicate the text of the Introduction.

This part should be rewritten.

- The size of abstract is too long. The current size is 289 in the revision.

The authors need to cut the size to maximum 200 words.

- In addition, the abstract should not be the first section. The first section should be the introduction section. The authors need to separate them (abstract and introduction).

- Moreover, the authors should move those keywords (Baganda people, Indigenous Knowledge and Natural Conservation aspects.) right after the abstract but before the first section (introduction section).

- Check gramer.

- In the text, do not use the first person "we", "our".

- to have the text English proofread (mainly the article).

References should be checked.

- " [2],[5], [13], [14],[17],[18],[20],[22],[24],[27],[30],[32],[33],[34],[35],[36]" , these should be checked-[in the text].

- All works cited in the text must be listed in the References.

- to elaborate the bibliographic citation and references format according to the needs of JOGRESS.
