

I. K. Press

Journal Name:	<b><u>Asian Journal of Microbiology and Biotechnology</u></b>
Manuscript Number:	<b>Ms_AJMAB_12005</b>
Title of the Manuscript:	<b>Ecological significance of Dynamism of Physiologic Variance on Properties of Palm Oil Mill Effluents.</b>
Type of the Article	

**General guideline:**

**This journal believes that no manuscript should be rejected only based on 'lack of Novelty'**, provided the manuscript is sufficiently robust and technically sound. Too often a journal's decision to publish a paper is dominated by what the Editor/reviewer thinks is interesting and will gain greater readership - both of which are subjective judgments and lead to decisions which are frustrating and delay the publication. This journal will rigorously peer-review your submissions and publish all papers that are judged to be technically sound.

To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

## 1: Review Comments

	Reviewer's comment	Author's feedback
<p><b><u>Compulsory</u></b> REVISION comments</p> <ol style="list-style-type: none"><li>1. Is the manuscript important for the scientific community? (Please write a few sentences on this manuscript)</li><li>2. Is the title of the article suitable? (If not please suggest an alternative title)</li><li>3. Is the abstract of the article comprehensive?</li><li>4. Are subsections and structure of the manuscript appropriate?</li><li>5. Do you think the manuscript is scientifically correct?</li><li>6. Are the references sufficient and recent? If you have suggestions for additional references, please mention them in the review form.</li></ol> <p><b><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></b></p>	<p>[1] Yes it's a good paper and will contribute to the development of the palm oil business especially in the economic importance in terms of their impact on the environment</p> <p>[2] The title is suitable for the study. But please include the location of the study.</p> <p>[3] This is an interesting study on Ecological Importance of Physiologic Variance Dynamism on the Properties of Effluents from Palm Oil Mills.</p> <p>[4] When it comes to discussions of the brain, the finding is interesting. The subsection is good. But please amend the conclusions.</p> <p>[5] Yes it is correct, the manuscript is scientifically correct. But please provide the objective of the study in the introduction.</p> <p>[6] It is suggested that the writer add more literature review of the subject matter.</p> <p>[7] Please add more words in conclusions, with the addition of academic writing that describes the overall results and includes additional recommendations for further research. The references is not align with</p>	
<p><b><u>Minor</u></b> REVISION comments</p> <ol style="list-style-type: none"><li>1. Is the language/English quality of the article suitable for scholarly communications?</li></ol>	<p>Need some paragraph rephrase in some part especially in the methodology section. The methodology paragraph is so short. Please add some more words.</p>	

# J. K. Press

<b>Optional</b> comments	The article is well-written, organised, and of high quality. I would be happy to recommend the manuscript for Asian Journal of Microbiology and Biotechnology as it is an example of good study on the subject matter.
