

Journal Name:	Journal of Advances in Food Science & Technology
Manuscript Number:	Ms_JAFSAT_12503
Title of the Manuscript:	PHYSICOCHEMICAL AND SENSORY CHARACTERISTICS OF REBON (ACETES SP.) SHRIMP PASTE SAUCE
Type of the Article	

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The current study is considered significant to contribute to the scientific community but certain limitations are also applied as discussed in below listed sections. The given studies can contribute to increasing the organoleptic properties as a flavor enhancer, the organic source one. The prepared and artificial flavor has many disadvantages associated with their utilization.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title of the Article is according to the carried research work.	

<p>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p>The abstract shall present the most significant findings of this article. More concise sentences should be used for fluency. Repetition of the same words should be avoided.</p>	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p>The aim and knowledge gap of this study should be placed in the introduction.</p>	
<p>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</p>	<p>It is advised to add a graphical representation to explain your results along with pictures of the Glutamic acid content. The results of all other determined properties needed solid evidence in the form of conducted experimental pictures. For instance, appearance property can be validated by the availability of the produced results (pictures). Tables are not enough to justify the results.</p>	
<p>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</p>	<p>More recent references should be cited in the introduction.</p>	

Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	The fluency of the sentences should be improved either way.	
Optional/General comments	Need to check grammar and spelling. Chemical formulas should be written in a way such as subscripts in this way K_2HPO_4	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
