PART 1: Comments

	Reviewer's comment	Author's Feedback (It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. A minimum of 3-4 sentences may be required for this part.	This manuscript provides a comparative field based evidence on the process of how soil fertility and nutrient cycling differ between two tropical wetlands of Kerala. It is essential to study the soil properties as to how it is influencing nutrient regulation and crop productivity. It applies information to applied agriculture studies specially in rice-based systems.
